

Testimonials: Our Clients Say it Best

Customer satisfaction is our ultimate goal. Here's a sampling of our clients' experiences:

The Velocity team was very responsive during the sales cycle, understood our needs and helped us accomplish our goals at a reasonable cost. Our announcer said it was the first time in 19 years that we had zero complaints about the quality of the audio at the Porsche Parade. They did a fantastic job and I would definitely use them again.

Charles Becker
AV Chairman
52nd Annual Porsche Parade

I never have to worry about any details when I use Velocity - they never miss a beat. We have a brief conversation before our events and everything is taken care of. I just show up on site and run my program. Velocity is priced competitively and their work is impeccable.

Tony Pinsonault
Managing Partner
Pinsonault and Associates

As our prime AV vendor, Velocity represents I.C.E. Special Events during all productions. I just have to call Velocity, tell them what I envision, what my budget is and enjoy being the hero during the event due to their expertise and professionalism. Velocity offers the most state-of-the-art equipment in the most pristine condition. Their engineers and technicians represent the epitome of professionalism and knowledge in the audio visual arena.

To prospective Velocity clients I say – If you haven't incorporated Velocity's ARS system in your conference presentation – DO IT! We all look for a way to raise the bar and increase interaction during conferences that deem to be boring with numbers. The ARS Systems spices up any program to new heights.

Our repeat relationship with our clients is the basis of our business. Why would we want to take a chance incorporating anything less than the quality of Velocity AVS?

Judy Ivie
I.C.E. Special Events

Velocity's interaction with me as a client is exceptional. They are interested in making sure my needs are taken care of. They look ahead and take care of issues that may arrive before they even come to fruition. The staff at Velocity knows what I want, does what I need and it all gets done. Velocity is a great pleasure to work with.

Kim Starnes
Meeting and Events Manager
Jack Henry and Associates (Symitar Systems)

We use Velocity AVS for AV and audience response systems when we hold advisory boards. They take care of every little detail flawlessly from start to finish on our events and that's why I won't use any other AV company.

Becky Johnson
Executive Director, Sales and Marketing Operations
Managed Market Resources

I rely on Velocity for lighting, sound and video production at corporate events and fund raisers. The team at Velocity provides service and follow through with a creative flare that helps take every event to the next level.

Laurel McFarlane
President
McFarlane Promotions

We use Velocity Audio Visual for almost all of our audio visual needs. We've been very pleased with their products and services. Velocity has state-of-the-art equipment, keeps everything in perfect condition, and is constantly seeking to learn about and try new products on the market. We consider all the staff members at Velocity as an extension of our team of event professionals.
